FORMS

- “Thanks Rachael! This semester was made much clearer to me thanks to you. You do a great job teaching this class and I am sure you will become a great professor some day. -Frank”
- “Discussion helped clear up material in lecture. You went at a very good pace. I wish you were going to be a discussion teacher for Math IV. I was bummed when I got help from other people in the Math Lab b/c it didn’t seem like they explained it as well.”
- “This discussion section is how I’ve learned the course material. She does a very good job going step by step through helpful examples. I would definitely recommend her to other students and take her discussion section again.”
- “I really enjoyed having you as a TA. Class was very helpful and I like that if we had ?’s that you didn’t know you would find out for us. This discussion went along well with lecture and I think you ran things well. In my opinion you don’t need to change anything. Good job :)”
